B2B Systems  
Omni-Channel Integration

Typical Pricing

Pricing varies, based on  
number of stores,  
warehouses, and orders.

Long Description

The Pulse Commerce Order and Inventory Platform offers a cloud platform for retailers to deliver from multiple channels with a single real-time enterprise-wide view of orders, inventory, customers and products across fulfillment centers and customer touch points. Pulse Commerce tracks order routing for inventory turnover and reduced stock outs. Features for retailers include customer click and collect, ship-from-store, buy online and return to store.

## REFERENCES

Testimonials

"Pulse Commerce is more than just a software vendor to us. They are innovators and problem solvers. They thrive under pressure and complexity. It's rare to find such a combination of technology talent and business acumen. Pulse Commerce has quickly become our trusted ecommerce advisor. They deliver on-time, within budget and with incredible passion and leadership. They are the true professionals!"

Rudy Fernandez

CFO

Goode Company

"Pulse Commerce levels the playing field for us. Their new platform is a real game changer."

Fred Hord

Head of E-commerce

Badgley Mischka

"With the FIFA World Cup coming up, we needed to upgrade our digital commerce platform to capitalize on this massive opportunity. We were nervous about this change but Pulse Commerce delivered with speed, agility and high quality, and we scored BIG!"

Tony Marrero

Director

SoccerPro
